## About

I'm a third-year Music Technology student at Kingston University London, composing original music and designing sound for games and films. My work spans ambient scoring, sound design, and 5.1 sound composition. I'm looking for opportunities to write music and design sound for games.

## Game Work

### Uni-Verse - Student Game

*Music & Sound Design · 5 minutes*

Composed the music and designed the sound effects for Uni-Verse, a game built by a fellow Kingston University student on the MA Game Design course. The audio was created to support the game's atmosphere and mechanics across its key scenes.

### Gimmick! - 8-bit Reimagining

*Original Composition & Sound*

*3 minutes*

*Coursework for Synthesis, Sampling and Sequencing module*

An original chiptune reimagining of the music and sound for the cult NES game Gimmick!, built as a study in 8-bit synthesis and sequencing techniques.

## Film Work

## **Third Day - Short Film**

*Original Score*

*4 minutes*

*Directed by Arikta Verma*

Composed the original score for Third Day, a short narrative film written and directed by a fellow Kingston University student.

## **Climate Change Awareness Film**

*Original Score*

*5 minutes*

Composed the original music for a short awareness film on climate change, produced by a fellow filmmaking student.

## **Original Music**

### **Sijanie - Debut Album**

*6 tracks*

*Electronic*

My debut album of original electronic music.

### **Mirror Twin - Second Album**

*In production*

A second electronic album, currently in development as an independent follow-up to Sijanie.

## **Technical Craft**

### **5.1 Surround Sound Composition**

*Original Composition*

*5 minutes*

An original piece composed and mixed in 5.1 surround sound, demonstrating spatial mixing and multichannel production skills relevant to interactive and immersive audio.

## **Analog Mastering - Visconti Studio**

*Mix & Master*

*4 minutes*

*Coursework for The Visconti Studio module*

A track mixed and mastered on analog studio equipment and recorded to tape at Visconti Studio.

## **Skills**

- Sound design for interactive media (game audio)
- Original composition & arrangement — electronic, chiptune/8-bit
- Mixing & mastering, including analog/tape mastering workflows
- Surround sound (5.1) composition and mixing
- Live instrument performance and arrangement

## **Education**

Kingston University London

BA (Hons) Music Technology

*Expected 2027*

Relevant modules:

**Synthesis, Sampling and Sequencing** - synthesiser programming, sampling, sequencing, and electronic composition (basis for the Gimmick! project)

**Sonic Environments** — acoustics, spatial sound, and sound design for interactive game environments and soundscapes

**The Visconti Studio** — analog and digital production, 1/4" tape mastering

**Audio Post-Production** — Foley, ADR, and sound design for film, TV, and games

**Advanced Production** — professional mixing and mastering practices
